

# What is UKMON

- Self funded UK wide network of amateur astronomers using cameras to record meteors!
- Gathering and sharing recorded data, thus contributing to science
- While having fun, it is a hobby after all
- Connecting with others and inspiring

# What do we do?

- We record meteors, fireballs, TLEs, planes and bats
- Collect, analyse and share gathered data
- Keep UK archive public
- Perform automated analyses
- Sorry no UFOs
